

This is to certify that the name of John Brown appears upon an abstract of the medical journal of the Brig of War "Warrington" on the files of the Dept. dated 16th July 1843, signed by the Surgeon of that vessel, R. M. Clark, as having been placed on sick report on the 30th April 1843, with the following remark appended his name - to wit:

"In consequence of the wounds he received in the leg, I certify that he will hereafter be incapable of earning his maintenance." The report does not state when he was wounded, nor does the log of the vessel show; but the inference is that it was on the 30th April 1843.
